# Senox Rain Barrels Selection

## SpringSaver

This 50-gallon capacity rain barrel provides great functionality with dual spigot access ports and quad overflow connections. The "closed safety design" helps prevent accidents for children, pets or wildlife. Each barrel is supplied with the components and a hose for a linking kit or overflow hose. The compact design requires minimal set up area and provides for easy transportation.

#### **MULTIPLE LINKING & OVERFLOW PORTS**

Linking Kit allows series of barrels to connect or to attach garden hose to direct overflow to runoff area

MOSQUITO & DEBRIS SCREEN
Screened intake filters organic debris
and prevents insect entry

### RECESSED TOP & FLASH OVERFLOW CHANNEL

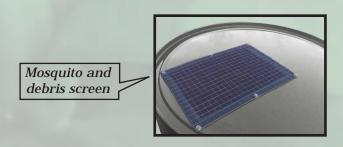

Prevents splashing or spilling, manages flash storms by pushing excess water away from foundation

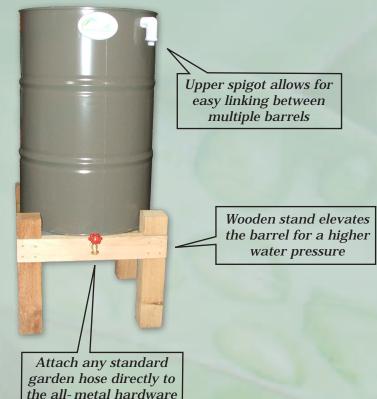

UPPER & LOWER SPIGOTS Enables hose attachment and access to entire water supply

## Green Water

Conserve precious rain water with this 55-gallon rain barrel. The high capacity barrel, available in Brown, is easy to use and allows for water harvesting year round. The mosquito and debris screen located on the top of the barrel prevents buildup from collecting inside.

Rainsaver

Expect quality performance, function and design from this 54-gallon rain barrel. Offered in natural color choices of green and brown these barrels complement and enhance its natural surroundings. The high volume automatic overflow protects foundations during flash storms.
